Portfolio: <https://shembrooklyne.github.io/ShemBrooklyne/>

## PERSONAL STATEMENT

A young and ambitious lad who is ready to secure a responsible career opportunity, to fully utilize my training and skills in order to make significant contributions to the success of the company affiliated with, and to expand my learning knowledge and skills.

## HIGHLIGHTED SOFTWARE APPLICATIONS

### Post Fire

URL: <https://shembrooklyne.github.io/POSTFIRE/image/upload>

This is an Angular web mini gallery project that allows one to upload and caption images to a cloud gallery powered by firebase's realtime-database and it's cloud storage as well.

### Expense Tracker

URL: <https://github.com/ShemBrooklyne/Expense-Tracker-App>

This is a full-featured expense management app. It tracks and categorizes all the expenses you make, simply day to day spending. The app creates a chart indicating your weekly cash flow and breaking down your monthly expenses. In addition, the app can help you with financial planning and provide an investment check-up. It's an android mobile app.
